Room Alert MAX Heat Safety Monitor

Heat-related workplace injuries send thousands of employees to the hospital every year, and cost companies millions in OSHA fines, lawsuits, and lost productivity.

The **Room Alert MAX Heat Safety Monitor** helps stop heat-related emergencies before they happen. This complete monitoring solution instantly alerts you when temperatures and heat index reaches dangerous levels, keeping your team safe while ensuring full OSHA compliance.

No complex installation. No guesswork. Just complete protection you can trust, with real-time monitoring through BACnet, SNMP v3, and our mobile app that puts critical alerts right in your hands, 24/7 no matter where you are.

Product	Name	Qty	Description
	Room Alert MAX Base	1	Monitor up to 10,000 sqf with the Room Alert MAX Base. Includes a built-in Temperature Sensor and supports up to 10 wireless sensor connections.
	MAX Temp & Humidity Sensor	4	Monitor temperature, humidity, heat index, and dew point from one wireless sensor. 2+ year battery life.

Need to monitor additional factors to help protect your people, property, and productivity? Visit us at RoomAlert.com to learn more about all of the additional sensors and accessories available to help monitor your facility to help keep your staff safe!
