Room Alert 7E is AVTECH's solution for "Computer Room Environment Monitoring, Alerting & Automatic Corrective Action" at a low, entry price. Room Alert 7E has a built-in web server that allows alert notifications via email, email-to-SMS, SNMP and more. Room Alert 7E offers an easy to use web browser interface for settings changes and viewing real-time temperature and environment sensor status from anywhere. Room Alert 7E monitors rooms ranging from very small, unmanned phone or wiring closets to extremely large, corporate data centers, museums, schools, universities or other facilities. Also included are licenses for AVTECH's powerful *Device Manager* and *PageR Enterprise* software for network-wide monitoring. Room Alert 7E allows for 4 digital sensors (temperature or temperature/humidity), and 3 switch sensors
