Flood Sensor w/8' Cable	RMA-F008-SEN
Flood Sensor w/24' Cable	RMA-F024-SEN
Flood Sensor 8' Cable Extension	RMA-008CE-SEN

## Flood Sensor w/Cable

AVTECH's Flood Sensor w/8' or 24' Flood Cable is activated by liquid (i.e. water, flooding, leakage etc.) making contact with the Flood Sensor Cable which can detect as little water as several drops. Once liquid is detected the Flood Sensor triggers an alarm condition allowing Room Alert monitors or Device Manager software to send out alerts and/or take automatic corrective action.

- Real-time recognition of water/flood anywhere along the length of the patented flood cable.
- 8' or 24' Flood Cable with 25' RJ-11 leader cable.
- Alert triggered when sensor is activated or power lost.
- Flood cable can be extended with one or more Flood Sensor 8' Cable Extension(s).
- Max sensor cable distance is up to 900', includes 25' sensor cable.
- Compatible with Room Alert 32E/W, 26E/W, 24E, 12E, 11E, 7E, 4E, 3E; WiSH & WiSPR sensor hubs.
- Flood Sensor 8' Cable Extension(s) requires connection in-line between AVTECH's Flood Sensor (internal on Room Alert 26E/W) & end of line 8' or 24' Flood Sensor Cable.
- Includes Flood Sensor with 8' or 24' Flood Cable & 25' RJ-11 Leader Cable, 25' Sensor Cable, 5V Power Adapter & Mounting Screws. Installation Note online from sensor page.
