Light Tower w/Audio ST-RYG-LT

Light Tower w/Audio

AVTECH's Light Tower w/Audio is designed to enhance the alerting capabilities of any and all Room Alert monitors to include visual and audible alerting when an issue or event occurs. The visual lights and audio alarms can be turned on or off automatically or manually via Room Alert, Device ManageR and SNMP Trap or Set commands. Any Room Alert or Axis camera on the network can enable or disable the lights or audio without the need to be directly attached to that unit. Lights can be activated as alarms are detected or resolve by sensors or devices across the network.

- Turn on/off automatically when alarms start or stop (i.e. high temps, power outage, room entry, etc.).
- Red, Yellow & Green Lights also turn on or off via SNMP Trap or Set, URL & interactively via AVTECH's Device ManageR software.
- Adjustable audio alarm with intensity range of 0 to 95 dB (at 1m).
- Includes 15' (4.6m) Light Cable; 25' (7.6m) Extension Cables available.
- Compatible with Room Alert 32E/W/S, 12E/S & 3E/S via a Light Tower & Relay Adapter (LTA).
- Compatible with Room Alert 4E directly (no LTA adapter required).
- Includes Light Tower w/Audio, Red, Yellow & Green Lights, 15' (4.6m) Cable & Mounting Bracket. AVT-210901.11
